

RAILWAY RECORD.
HILL MAKING
CALIFORNIA.Empire Builder Is Back of
Oregon Trunk Line.John F. Stevens Tells of His
Backing.Tarriman Man Says There's
Plenty of Room.

PORTLAND (Or.) Aug. 15.—The Oregon Trunk line which is contesting the route up the Deschutes into Central Oregon with the Hartman system, is controlled by John F. Stevens, former chief engineer of the Panama canal. James J. Hill, an individual, is financially interested in the Oregon Trunk line, to which extent necessary to carry the line through to a successful completion. This was announced by Mr. Stevens in this afternoon and finally settled a disputed question as to who has the right to build the line. The Oregon Trunk line, which has been making a spectacular fight recently for advantage in a Deschutes canyon.

That Mr. Hill has been behind the opposition has been surmised from a moment the Oregon Trunk began its construction work. It is the contention in local railroad circles that the beginning of a line that eventually terminate at San Francisco.

Mr. Stevens' statement in full follows:

CONTROLLING INTEREST.

"On being asked several days ago if I had any interest in this proposition I represented that I was not. However, I am interested, I said so and the statement still holds good. When that time however, I have said a controlling interest in the line, have all necessary financial resources completed and the road to be built as fast as it can reasonably be done with men and money. The latter is a personal one and I have objection to saying that Mr. J. J. Hill as an individual is financially interested to any extent necessary to carry the road through to a successful completion.

Plans in detail are not fully developed, but will become apparent from time to time, as conditions may seem require. It may be said, however, that the Oregon Trunk railway project is to provide as quickly as possible a northern outlet for Central Oregon, regardless of the designs of other transportation company."

PLENTY OF ROOM.

Then shown the statement of John Stevens announcing that he and James J. Hill were behind the Oregon Trunk line, J. P. O'Brien general manager of the Hartman lines in Oregon and Mr. Stevens and Mr. Hill and associates want to build a rail line into Central Oregon, let them go. There is plenty of room in the Deschutes canyon for two railroads and we don't see who is going to stop them. We have a pretty position of what our rights are in Deschutes country and we propose to maintain and protect them.

The last reported sale of the Oregon Trunk line will in no way affect our position. We have promised to build a railroad into Central Oregon, have the money to build such a road and shall proceed with building as soon as the courts will give the right to proceed. We had men and money and we are now in actual construction work. The Oregon Trunk people started operations. For we have 1200 acres at different points on our survey and all there is to be said about

TOO RISKY.

AN ON SHOW
STARTS A WAR.FOR OF CINCINNATI RULES
OFF "GIRL IN BLUE."tion Causes the Bitter Hostility
Many Theatrical Folk in Ohio
Flame Up Anew and Hot Times
Are Threatened by Anti-Cox Politicians.

DIRECT WIRE TO THE TIMES.

CINCINNATI (O.) Aug. 15.—[Exclusive Dispatch.] In ruling "The Girl in Blue" it was to have begun playing at the People's Theater, but Mayor John Cox and other officials have incurred the enmity of the open hostility of many theatrical people of the State of Ohio. "The Girl in Blue" is one of the real burlesque performances of the day.

Following immediately the announcement that "The Girl in Blue" was to be played at the People's Theater, Mayor Cox issued an order that all persons who shall be kept out of Cincinnati shall be kept out of Cincinnati. James Finney, manager of the theater, asked if that was all and was told it did. There the show was not put on.

Finney is a Democrat and has been the rule of the Cox political machine for several months. Finney, who runs the People's Theater, where shows said to be worse than the "Girl in Blue" being put on every night, including Sunday, has not been disturbed. There are many other places of similar nature being conducted here, however, Mr. Finney will not permit them, although the other shows operate, but will presently know he cannot open his theater.

SUICIDE BY DYNAMITE.

Man Blows Off His Head Near
Peoria Hospital With

Cartridge.

PORTLAND (Or.) Aug. 15.—[Exclusive Dispatch.] Charles P. Jones, aged 72, Peoria, Ill., blew his head off with dynamite cartridge in a room near the Peoria State Hospital last night, August 15, on his own request.

His case was but a mild one and he died cheerfully with the nurses' aid. He had the freedom of the hospital and was not confined. The dynamite cartridge from a nearby case

he had covered the head from the

as if by a gullotine, and while

he was in the room of the head

body was in good shape.

CHINA'S BONE OF CONTENTION WITH JAPAN.

OVER CHINA AND JAPAN.

Returning Steamer Brings Word of Increased Military Activity in Both Countries, Following Determination of Japanese to Rebuild the Antung-Mukden Railway.

[ASSOCIATED PRESS NIGHT REPORT.]

VICTORIA (B. C.) Aug. 15.—There was much military activity both in Japan and Manchuria when the Empress of India, which arrived yesterday, left Japan. The movement of troops in consequence of Japan's determination to rebuild the Antung-Mukden Railway.

Meanwhile a further cause of trouble has developed as a result of China's determination to build a rail line through Manchuria, to connect Korea via Chientao, the island Tientsin, regarding ownership of which China and Japan are still involved, with Korea on the Chinese section of the Manchurian railway.

Japan some time ago offered to concede China's right to Chientao if the Chinese government would agree to build a line from San Francisco to Chientao. The Chinese refused. The Chinese terminal of the line will be Hanchuan, on the north side of the Tumen, near the Russian frontier.

From this point the road will be carried to Chientao, and branches will lead to Niguta, the other northern terminus.

BRUTAL.

MYSTERY VEILS MURDER OF
BEAUTIFUL CHINESE WOMAN.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Aug. 15.—Chinatown was excited today on discovery of the murder of the most beautiful of the few Chinese women in New York, Bow Kim. She was 21 years old, and came here from San Francisco a few years ago with an Americanized Chinaman, Chin Len, 31 years old.

Just as the usual Saturday night revelry was quieting down, Chin Len dashed out of a tenement house at 17 Mott street, crying:

"My woman has been murdered."

The street filled with jostling Chinamen and parties of "light-skinned" all of whom quickly recalled the sensational murder of Elaine Sigel, thrown into excitement by a policeman and a detective hurried into the house under Len's direction. In a bedroom the murdered woman lay

on the floor, stabbed in half a dozen places. Her slender neck was ringed with bloody marks, indicating a struggle with her assailant, and beside her lay a bloody hunting knife. It was evident that the woman had been dead for two or three hours. On the floor were found traces of blood and also on a door leading to the store of Yuen Chin & Co. on the ground floor. Three Chinamen were arrested although they denied any knowledge of the murder.

Six American women who declared themselves to be wives of Chinamen were found in the house and arrested, but none would admit any knowledge of the murder.

Len's account of himself was that returning at 2 o'clock in the morning, he found the body on the floor. No formal charge has been preferred against Len but he is held in \$5000 bail as a "material witness."

NEW AIRSHIP IS READY.

Cincinnati Man Has Dirigible Good for
Forty Miles an Hour and Long
Trip.

[BY DIRECT WIRE TO THE TIMES.] CINCINNATI (Ohio) Aug. 15.—[Exclusive Dispatch.] A new airship, built along new lines, and said by the author who built and operates it to mark new developments in the world of aerial navigation, has just been tested and tried in private trial flights at League Park by Leslie Hallack. He says that his dirigible will easily attain a speed of forty miles an hour and can remain in the air at least eighteen hours.

Hallack recently made a record in the Wanderer, which he retained for fifteen hours. The new dirigible has better engines and stronger mechanical apparatus. Mr. Hallack says he will make several flights about Cincinnati in his new machine and that afterwards he will take it East for flights and exhibitions.

The machine is not exactly a dirigible, but is more of an airship, because it depends upon the workings of its paddles to keep it aloft.

LESSON IN BALLOONING.

BECKMEYER (Ill.) Aug. 15.—[Exclusive Dispatch.] The balloon University City, J. F. Berry, pilot, accompanied by six employees of the Halsey Automobile Company, who are learning ballooning, landed one mile north of Beckmeier on the farm of Fred Haumesser at 6:30 p.m. this afternoon. The balloon was loaded on a wagon and hauled to Beckmeier and shipped back to St. Louis. The start had been made from St. Louis at 4:15 this afternoon.

ORANGEMEN RIOT.

Dublin, Aug. 15.—An excursion party made up of the Ancient Order of Hibernians was attacked today at Port Adown, Armagh, by a mob of stone-throwing Orangemen. Six hundred policemen were required to suppress the rioting, during which many persons were injured.

A Beautiful Landmark.

PRESIDENT'S PROBLEM.

(Continued from First Page.)

eral opinion, I do not massage President Taft, except to keep the abdomen from wrinkling under the loss of flesh.

"He is always been a very heavy man and he has continually put on weight until three years ago. When I first met him he weighed close to the 350-pound mark, although he is rather sensitive about his weight. I took him in hand and together we went to work with might and main until his weight was reduced almost eighty pounds, to about 270."

NO POLITICS IN CENSUS.

[ASSOCIATED PRESS NIGHT REPORT.] BEVERLY (Mass.) Aug. 15.—In a letter addressed today to Secretary Nagel of the Department of Commerce and Labor, President Taft served notice that any man employed in taking the thirteenth census who engages in politics in any way will immediately be dismissed.

Outside of casting their votes, the President believes that census supervisors and enumerators should keep clear of anything that savors of politics, national, State or local.

Mr. Taft says that in appointing census supervisors it has been found necessary to select men recommended by Senators and Congressmen in their districts. He says he realizes that this method of selection is easily perverted to political purposes, and it is to take the census out of politics, so far as the actual work is concerned, that he has issued this notice. He expressed his desire regarding regulations. Among the appointments of supervisors today are the following for California:

First District, H. Julian Wright; Second District, John J. Deane; Sixth District, Lewis H. Lincoln; Seventh District, George Fitch.

TRAIL OF EARTHQUAKE.

Damage by Tumbler in Japan Reaches
Big Total in Life and
Property.

[ASSOCIATED PRESS NIGHT REPORT.] TOKIO, Aug. 15.—Reports received today concerning the earthquake in Central Japan Saturday, show that there were many fatalities, and that great damage was done to property. The dead at present are said to number thirty, though it is feared that the roll of fatalities will be greatly increased in the outlying districts.

The number of persons injured is eighty-two. Thus far 25 buildings, including many temples, are reported to have been destroyed and more than 1000 others badly damaged.

The shock occurred at 3:30 a.m. Saturday afternoon, and affected a wide area in the Shiga and Gifu prefectures.

The town of Asaka in Gifu suffered terribly. The banks of the Hida River broke, and the country is inundated. The people of the district fled to high ground and remained in the open all night. Intermittent shocks were felt throughout Saturday night and early this morning. The mountain built, a short distance west of Gifu, emitted smoke in the early stages of the earthquake and then collapsed with a thunderous roar.

ICE HINDERS PEARY RELIEF.

ST. JOHN (N. F.) Aug. 15.—The continued presence of icebergs and floes along the northern section of the Labrador coast, as reported here today by vessels arriving from Labrador, may seriously hamper the Peary relief ship Jennie. It is believed that the Jennie will be considerably delayed in arriving at Etah, Greenland, the Peary base.

SEAMSTERS' GUILD NAME GIRL TO RUN RANCH.

[ASSOCIATED PRESS NIGHT REPORT.]

CHICAGO, Aug. 15.—Miss Glenna Lynch, 20 years of age, has been chosen by a group of Chicago seamstresses to run a 160-acre fruit farm which they have bought with their earnings. The young women call themselves the "Maido Guild."

They banded together several years ago with the agricultural project in view. By pooling their resources they secured 160 acres of government irrigated land and have been putting their spare earnings into improvements since. Eight members constituted the "guild," but there have been some additions as the prospects of the scheme grew.

Miss Lynch will make a special study of the farm, pick up all the working

of Chicago, representative of the Chicago Dressmakers, who have bought a fruit farm in Idaho. Miss Lynch will manage the farm.

the ground for her companions. Meanwhile, until the farm is able to support all of them, the ones remaining at home will forward such funds as Miss Lynch may call for to put the property in the best condition.

On the eve of her departure Miss Lynch was given a farewell reception by the Dressmakers' Art Club and Idaho Guild at the rooms of the Art Crafts Institute. She was presented with a silver toilet set, although she told the donors that she believed a pair of hip boots and a brace of magnum salis revolvers would be more useful on the Idaho farm.

Miss Lynch confessed to about twenty years—she is not more than that—and she has brains, ability, lots of courage and is not afraid of hard

Law Partner of Gov. Hadley of Mis-

souri Stricken in New York With
Apoplexy.

[BY DIRECT WIRE TO THE TIMES.] KANSAS CITY (Mo.) Aug. 15.—[Exclusive Dispatch.] Hugh C. Ward, law partner of Gov. Hadley and one of the most prominent attorneys of the Interior Department, upon the stroke of apoplexy in New York this morning. An attack of heat prostration which he suffered in Chicago a month ago was the cause of the stroke, which led up to the death of Mr. Ward. He had never fully recovered from the attack, although his condition had improved sufficiently to permit him to continue his journey to New York, accompanied by his wife. With Mr. Ward at his death were Mrs. Ward, Judge John F.

"THE TIMES"
STANDARD GUIDE.

The Times Standard Guide to Southern California, to be issued in October, will be the only complete and authoritative guide-book to Southern California that has ever been published. It will cover every possible form of information necessary or of interest to the tourist or to the resident. The following are a few briefly-outlined departments of the many which will appear in the guide:

Every railroad route, trolley route, automobile road or carriage drive of interest in Southern California is outlined in brief, with a description of each. The correct pronunciation of Spanish names is given. A complete directory of all the hotels of prominence and the chief restaurants of Southern California; a list, with description, of the amusement places, of industrial and art exhibitions, sports, parks, libraries, office buildings, banks, hospitals, churches and services, public and Federal buildings, electric and railway stations, stables, taxicab and cab stands, sanitariums, springs, resorts, camps, historic landmarks, etc.; a description and history of every mission and of every city and town with a population over 500 in Southern California. The Guide will contain numerous maps and plans.

The information will not be in a simple index directory form, but in each instance an adequate description will be given concerning the subject, the object of the Guide being to answer practically all questions which the tourist or the resident may ask concerning Southern California.

ANOTHER WRECK VICTIM.

COLORADO SPRINGS (Colo.) Aug. 15.—With the death of C. M. McCrory of Dallas, Tex., at the St. Francis Hospital this morning, the number of fatalities resulting from the Husted wreck on the Denver and Rio Grande yesterday morning was increased to eleven.

None of the injured, numbering more than two score now in hospitals, are believed to be in a critical condition. Engineer Leasing, driver of the lead engine on the north bound train, whose passengers alone suffered death or serious injury, disappeared immediately after the wreck, and it was feared for a time that he had committed suicide. He was found at his home in Denver today. He appeared greatly worried and would not reply to questions regarding the cause of the accident. John Gossage, fireman for Leasing, was the only one among the six engineers to meet death. The wreck occurred within sight of his home and his wife who was standing in the doorway watching the train go by, witnessed the accident. She was among the first to reach the scene.

LOST GIRL FOUND. (BY DIRECT WIRE TO THE TIMES.) CHICAGO, Aug. 15.—(Exclusive Dispatch.)—Marguerite Haley, twelve years old, who disappeared Thursday night from a boarding school at Oak Brook, Ill., was found today in the home of a well-digger in Williams Bay, Ill.

The missing girl was located after an all-day search by a reporter. She said that she had left the school because she did not like the regulations and discipline imposed by Miss Mary L. Felt, principal, and because she had conceived a dislike for Mrs. M. A. Ahrens, Miss Felt's mother. The girl showed no emotion over the almost country-wide search which had been made for her for three days and said she was in the house where she was found because she had asked for secret shelter there until she could get means to go to her father, H. A. Haley, in Norfolk, Neb.

"I planned the running away all myself," she said, smiling. "I told no one that I was going except my step-sister, Edna Haley. I told her I was going to see my father, and she said she would go with me. But she was going to leave the school because I could not stand it any longer."

PHARMACISTS STATEMENT. PROHIBITION IS MAKING
DRUG STORES SALOONS.

PROF. JOSEPH P. REMINGTON, dean of the Philadelphia College of Pharmacy, chairman of the Council of the American Pharmaceutical Association and chairman of the board appointed to revise the United States Pharmacopoeia, is in the city to attend the fifty-seventh annual meeting of the association.

Last night, in an interview, he said: "The drugist should be a leader in the community. It is a pretty tough proposition when a man is forced into such a predicament."

"One of the oldest, if not the oldest known profession is that of pharmacy. The Bible speaks of it many times. Shakespeare mentions it many times, and it has always been most dignified and honorable. Science is added to it for much advancement, but when the profession is put on the level with saloon-keeping, it loses its glory."

"The drugist is compelled to keep whisky in his store for dispensing purposes, and when a man comes in with a prescription from a physician for whisky, he must fill that prescription. Anybody can get a prescription in prohibition communities."

FINANCIAL. SPECULATORS
SUSPECT MARKET.

OPERATORS KEPT WATCHFUL BY
WEEK'S DEVELOPMENTS.

Present Level of Prices, While Not So High as Three Years Ago, is Held to Represent Range Never Reached—Crop Outlook Most Optimistic.

(ASSOCIATED PRESS NIGHT REPORT.) NEW YORK, Aug. 15.—The developments bearing on the financial outlook were of sufficient interest last week to keep the stock market in a state of constant suspicion and watchfulness.

The skepticism manifested by the professional operators was not due to any unsatisfactory news affecting values, but solely to the technical position. The present level of prices, while somewhat below the averages for the picked active stocks touched in 1929, is held to represent a higher price range than ever before reached.

While there was some monetary disappointment over the sharp deterioration in the condition of the corn crop, the government corn report, on mature consideration, served to clinch the argument that agricultural prosperity was assured for the season.

The decline in the corn condition left the crop estimate still at a record figure, and the oat crop, practically garnered, also stands as a record. The wheat crop is regarded as made, and there is promised a total yield of over 700,000,000 bushels, with such world requirements as to insure highly profitable prices. Even the impaired cotton crop was believed to be bettered.

Another field of brightened conditions was in the copper industry. The monthly report of the Copper Producers' Association gave greater strengthening influences. The heavy decrease of 35,000,000 pounds in the surplus of refined copper during July was a striking exhibition in itself, but the feature of most influence in the improvement of copper transactions on domestic orders.

The money market showed the effect of the growing demands for funds, but the feature of most influence in the improvement of copper transactions on domestic orders.

The money market showed the effect of the growing demands for funds, but the feature of most influence in the improvement of copper transactions on domestic orders.

The money market showed the effect of the growing demands for funds, but the feature of most influence in the improvement of copper transactions on domestic orders.

RUG MIXERS
MEET TODAY.

and Session of Nation's
Rug Experts.

Scientists of Note to
Make Addresses.

Functions Arranged
for the Visitors.

Mrs. Charles H. Ward
of Pasadena, member of Executive
Committee.

When the Council of the association
will be called to order by Prof.
James W. England of Philadelphia.

UNIFORM LICENSE QUESTION.
At 9 o'clock the National Association
of Boards of Pharmacy will con-
sider the question of uniform
licensing of pharmacists in the
United States. This is the first
time that the question has been
considered by the association.

One of the disappointments of the
annual meeting will be the absence
of Prof. Oscar A. Ober, president
of the association. He is dean of the
Illinois College of Pharmacy at Evan-
ston. It was largely through his ef-
forts that Los Angeles was chosen as
the meeting place this year. His ad-
dress will be read at 1 o'clock this
afternoon at Blanchard Hall, by Prof.
G. Eberly, first vice-president.

Tomorrow morning at 10 o'clock at
Blanchard Hall, will take place the
nomination of officers. They will be
elected during the year, by letter, and
will be installed at the next meeting.
Tomorrow afternoon and evening the
section of the association devoted to
the conference of the National Board
of Pharmacy and also a meeting of
the faculties of the various phar-
maceutical colleges of the country.

Wednesday morning and afternoon,
the section on education and legisla-
tion will be in session in Blanchard
Hall.

At Thursday morning's general ses-
sion will be discussed various sci-
entific matters, and in the afternoon,
practical pharmacy and the diffi-
culties of dispensing.

Friday morning the historical phar-
macy section will convene at Blanch-
ard Hall, and in the afternoon will
take place the installation of officers
elected during the year by letter. The
new president is Dr. H. H. Rusby,
examiner of drugs for the Port of
New York.

The selection of the next meeting
place will be made on Friday after-
noon. There are two candidates for
this honor, Richmond, Va., and Wash-
ington, D. C.

TWO TRAINS CROWDED.
All incoming trains from the East
last night were loaded with mem-
bers of the pharmaceutical association
and officials at headquarters at the Ho-
tel Alexandria were kept busy registering.

All meetings will be open to
the public. The Los Angeles Entertain-
ment committee has arranged for the
entertainment of the visitors. The
association and members of
California Pharmaceutical Associa-
tion, and a large number of whom are
visiting from other parts of the
country. The president will be in-
charge of a committee of
entertainment and business and pro-
gram. After the function, at
Blanchard Hall, this
evening, the president will hold a
reception for the visitors. The
entertainment will be in the
evening an elaborate
dinner will be served at the
Hotel Alexandria. The
entertainment will be in the

dinner will be served at the
Hotel Alexandria.

L. N. Brunswig
of the Finance Committee.

guests until a late hour. The first big
crowd to arrive was on the Santa Fe at
6 o'clock, carrying members from Chi-
cago and the far East. This train was
met at San Bernardino by a commit-
tee consisting of Mr. and Mrs. G. W.
Dickinson, Mr. and Mrs. E. H. Lawer,
Mrs. Fletcher Howard, Mr. and Mrs.
Jacob W. Jensen, E. T. Baldwin and
F. N. Drake, who distributed flowers
and fruit to the passengers.

More than two hundred were regis-
tered last night, in addition to the 500
registered last week. Among those
who reached the city last night were
Joseph D. Remington and daughter of
Philadelphia; James H. Beal of St. Lo-
uis; Charles Casper and daughter of
Baltimore; J. A. Koch, Pittsburgh,
Pa.; B. H. Overbeck, wife and daughter
of Cincinnati; G. G. Godding and
wife of Boston; Harry B. Massey, De-
troit; George Lindvall, Moline, Ill.;
H. M. Wepley, wife and daughter of
St. Louis; C. H. Lodish of Chicago; J.
M. Francis and wife of Detroit; Eu-
gene G. Eberly, Dallas, Tex., and C.
S. N. Hallberg, Chicago.

At 9 o'clock last night an informal
reception was held in the parlors of
the Alexandria and there was music
and refreshments served.

Various pharmaceutical college
alumni associations have opened
headquarters at the Alexandria. Of
the Philadelphia College of Pharmacy
alumni, 100 are here. The Los Angeles
members of this association will give
a banquet Friday night to the visi-
tors, including Prof. Remington, next
president of the national association.

HOTEL BUSINESS GROWS.
Patronage This Season Greater Than
That of Any Previous Summer.

Fair Helps Here.
Summer patronage at the Los An-
geles hotels exceeds that of any pre-
vious summer season. This is due
partly to the exposition at Seattle. A
large number of persons visiting the
exposition include this city in their
itinerary.

"We have had the best summer
business of any of the seasons since
the hotel opened," said Fred L. Pres-
brey, chief clerk of the Hayward, yes-
terday. "Many of our guests come to
Los Angeles either on their way to
Seattle or upon their return. Low
rates also help to make travel
easy. There is no reason why this
city will not be as widely known as
a summer resort as it is now for an
ideal place in which to pass the win-
ter."

J. W. England,
Secretary of Council of American
Pharmaceutical Association.

ELUSIVE LAD
IS CAPTURED.

FATHER TAKEN EAST FOR TRIAL
ON SERIOUS CHARGES.

Before Leaving City, Elder Mackie
Said Police Weren't Smart Enough
to Get Boy—Senior Accused of
Embezzlement, Wife Desertion and
Arson—Stenographer Located.

"The police are not quite smart
enough to get the boy."
These were the last words of John
H. Mackie of Columbus, O., when, a
prisoner, he left Los Angeles, last
Wednesday, for his home city to
answer to charges of embezzlement,
wife desertion and arson.

"The boy," who is John Mackie,
twenty years old, was arrested at the
Southern Pacific station, last night,
just as he and Lucille Burton were
about to board a train for the East.

Lucille Burton is the young woman
who was the elder Mackie's stenog-
rapher when he was the head of the
Columbus Sporting Goods Company and
for whose sake, it is alleged, he de-
serted his wife.

Mackie, after a determined, but vain
fight against extradition, was taken
East to stand trial on a charge of hav-
ing embezzled \$15,000 which his wife's
grandmother, Mrs. Jane Green, had
given him to invest in his business.

He is accused of having burned down
his store to obtain this money to come
to Los Angeles with Lucille Burton and
his son.

The taunt of not being "quite smart
enough" to find a twelve-year-old
youngster "smart" than every man on the
police force, and each patrolman, de-
tective firmly resolved to get that
boy, Judge Wilbur, in the Juvenile
Court issued an order directing that
the lad, when arrested, should be
placed in the Detention Home.

Last evening Attorney William A.
Freeman, representing Mrs. Mackie in
her fight for her child, warned that
little John and Lucille Burton were
about to leave the city, and the vari-
ous railroad stations were closely
watched.

At a late hour the boy and
Miss Burton, accompanied by Henry
Stehr and his wife, appeared at the
Southern Pacific depot. At River sta-
tion, Freeman took the boy off the
train. When the lad was taken into
custody, Stehr and the two women
went with him to the Police Station.

Upon their arrival there was a lively
tilt between the detective temporarily
in charge, and Miss Burton. She de-
manded to know by what right the
police took the boy from her. She
was told that Judge Wilbur does not
consider her a fit person to have charge
of him.

The young woman, when questioned
by officers, said that she had been
staying with young Mackie at vari-
ous hotels in this city and at Ocean
Park.

WILL VIEW SPUR SITE.
City Council to Inspect Location This
Morning—Distances About

The spur track that almost un-
leashed the recall dogs on "Barry"
Healy, Councilman from the Eighth
Ward, is before that body again and
Healy is nervous. It is a spur from
the Santa Fe tracks on Commercial
street, running west from Amelia
street, and turning south across pri-
vate property to Ducommun street and
crossing a street at its east end. It
is petitioned for by Marco Healy,
man and all affected property has
consented.

The Board of Public Works objected
because the diagram filed showed a
wide concave curve on Commercial
street, bringing the tracks within two
feet of the curb. Holman, a supple-
mentary letter says this track will
be six and one-half feet distant. The
Council will view the scene this morn-
ing to make up its mind.

GEOGRAPHY COSTS LESS.
New Text-book in State Series Gives
Special Attention to Various Parts
of California.

Edward Hyatt, Superintendent of
Public Instruction, announces the
publication of a new State series of
advanced geography. He says the new
book will cost 25 cents, a reduction
of 25 cent from the cost of the old
book. The book will not be changed
for at least six years.

"Thus the State not only reduces
the price of the geography," says
Superintendent Hyatt, "but it gives
school children a first-class modern
text-book, well bound, clearly printed,
generously illustrated and written in
the light of the best educational meth-
ods of the day. The maps are simple,
special prominence being given to im-
portant places."

One of the features of the new book
is its supplement of 100 pages repre-
senting every section of California.
The supplement is designed to inspire
every school boy and girl in the State
with a lasting pride in California.

EVERY MORNING IN THE YEAR

THE NEWS—Our Associated Press service covers the globe...

Editorial Points

Why is not the birthday of Los Angeles made a legal holiday?

We are entering upon the fat years of prosperity, and Taft makes a fine President.

Lillian Russell declares that the hair rat must go. Would that it were the real rat.

On her one hundred and twenty-eighth birthday Los Angeles feels like a four-year-old.

Los Angeles certainly has improved its appearance by putting on that new water front.

Times are going to be so good that it seems men ought to try to be a little more that way, too.

The price of diamonds has advanced. Old Gen. Prosperity has taken to wearing them again.

It is all very well to figure on airships and all that, but why doesn't somebody invent a way to kill flies?

Mayor Alexander is making a great record by saving the city as much as 15 cents a day, sometimes.

Congress could have stood in a little better with Mr. Bryan if it had put a tariff on foreign lecturers.

"Woman and her hair," "Woman and her clothes," etc., etc. That's really about all there is in the papers.

Scientists have discovered that clarinet players are invariably bald. The way of the transgressor is hard.

People do not read as much or think as much as formerly. Yet they are making a lot more money.

Another beautiful feature of the tariff is that not one American in a thousand knows the first thing about it.

The wonder now is that San Pedro, Wilmington and Los Angeles were not always one city instead of three.

It is the matter with Massachusetts that Mr. Taft should think it necessary to spend his vacation there?

"It never rains but it pours," says the Portland Oregonian. Apparently Oregon still has the same old climate.

Speaking of ingenuity, a bald-headed Connecticut man has had a spider painted on his head to scare off the flies.

The weather reports from Massachusetts indicate that Mr. Taft is having a good time sweating out his vacation.

Although Los Angeles is more than a century and a quarter old, the snow of not a single winter is on her head.

The National Prison Reform Association is meeting in Seattle. It is an organization that has a lot of real work to do.

You can't pick up a paper these times without seeing something in it about balloons. And it will be more so from now on.

Attention has been called to the fact that the art of reading aloud has suffered a decline. The phonograph is the guilty party.

A Kansas merchant advertised: "I want eggs and I want them bad." He probably had wanted eggs and I want them bad.

Mr. Taft will cross the continent at about the right time to see the farmers at work harvesting this year's billion-dollar crop.

We can think of no one who is not now in shape to reap the benefits of prosperity except the merchant who does not advertise.

If the flea be blind, as asserted by scientists, how is it that he knows enough to jump just as you are about to put your finger on him?

The majority of Americans will take it for granted that the new tariff is all right without going to the trouble of reading it through.

There are laws a-plenty against the sale of liquor on Sunday, but that's the day when Los Angeles has the greatest number of drunks.

The barefoot fad is coming in again. It ought to be encouraged if only for the sake of the poor, tortured feet of nine women out of every ten.

Uncle Joe Cannon smokes like a factory chimney, swears, takes a drink, plays poker and does other things. And yet he is one of the greatest men in this country.

Perhaps the reason so many nations are changing ambassadors is that it is necessary to have a renewal of expressions of good will and friendship between rulers.

A regiment of negro soldiers has been quartered in Vermont and the Vermonters have sent in a protest to the War Department. Oh, days of the old underground railway!

After awhile Senators Cummins, Boveridge, Deliver and a couple of the others will realize that the praise that is being bestowed on them is coming entirely from Democrats.

A man who would leave Los Angeles now for five years would not know the city upon his return. But we hope that there is no man who would be so foolish as to leave Los Angeles for five years.

It was by giving voice to such assinine sayings as "Every man over 40 years of age is a scoundrel," that George Bernard Shaw gained widespread notoriety. You see how easy it is to become notorious.

THE CITY TAX RATE.

That the people of Los Angeles must meet an increased tax rate this year is not a surprise to them nor will it, we imagine, create the slightest alarm. Ever since the people voted overwhelmingly in 1907 to authorize a debt of \$23,000,000 for the construction of the aqueduct they have understood that this debt must be paid and that they obligated themselves to pay it. As the increase in the rate is due directly to the aqueduct debt no one need fear that it will climb unnecessarily in the next few years while we are waiting for the water to become productive of surplus revenue. The water will pay for itself and more, too.

It has been held by the Supreme Court that there must be an annual levy for the extinction of municipal debts through the sinking fund process and this means that our forty-year debt must be collected from the taxpayers in forty annual installments, although it must be paid in thirty-four. One of these fortieths should have been levied in full last year, but was not, and so the deficiency is included in this year's rate. The tax has been fixed after sound legal advice and, coming in forty annual installments, also meets the ends of business prudence, for in the seven years before the first bonds mature the city will accumulate a large part of the money to discharge the principal and to anticipate, perhaps, some of the remote amounts and thus save many years of interest.

The actual levy for aqueduct purposes is 48 cents and of this 31.7 cents is for sinking fund and 16.3 for interest. These amounts will perhaps be less in the aggregate next year. Certainly the amount for sinking fund will be less, because there will be only a one-fortieth levy and this will establish the rate for the sinking fund on the aqueduct debt for each of the succeeding thirty-seven years. The interest account will increase from year to year unless the sinking fund can be invested so as to take care of a large part of it, which is extremely probable with good management. So that the rate of 48 cents for the aqueduct debt may be taken as a maximum for several years to come; and, when a decade has passed, we shall see the water project earning a good surplus each year.

If we take the 48-cent aqueduct rate from the total—\$1.47—we find that the city is running on a 99-cent rate. This covers all municipal government expense, for which 85 cents is levied, and all other bond interest and sinking fund obligations, for which 14 cents is adequate. This is certainly an enviable showing as against many other cities of the same class as Los Angeles. Few cities in any class subsidize under the \$1 limit; and few that do are making the magnificent progress that Los Angeles has shown for a decade.

The Council and the Auditor deserve appreciation for so managing the finances of the city for three years past, after starting with a large deficit, that they can now show a treasury provided with funds to meet all obligations and calculated to leave a surplus when the present year ends next June. By ignoring the opportunity to increase the 85-cent rate, made by the indefensible diversion of the 15-cent school levy of the Los Angeles school district to the Supervisors of Los Angeles county, the Council has shown recognition of the claims of the aqueduct and of the need for economy.

UTILITIES COMMISSION.

In its consideration of a Utilities Commission, for which several confused plans have been formulated, the City Council must bear in mind that it cannot set up a body and vest it with powers intrusted by the city charter to the Council itself. There is danger in this unloading upon outside organizations work and responsibilities placed by the organic law upon the city government; there is danger in constantly assigning municipal powers to an organization like Willard's, which may imagine itself a coordinate branch of the government, but which certainly is not. The people elect Councilmen to attend to certain duties and they should not shrink; they are less than men if they permit either the Royal Arch or the W.C.T.U. to come into the City Hall and say: "Here, we will attend to things for you; we can do it better than you can; our wisdom is of a superior brand and so we will name this or that appointee or determine this or that question for you."

If the City Council appoints a Utilities Commission (which, if properly constituted and free from improper influences, might prove useful to a certain extent,) the Council itself should name the members thereof, or a majority of them. It should not surrender its chartered powers. It should maintain a dominance over the commission and the commission should not wrap itself up in a false sense of its own power or dignity. It should never be deemed aught but an advisory body will be initiative of its own. It may collect facts and may form views and report these; and there its efficiency must necessarily cease. It will work only mischief if possessed of the idea that it shall declare war on the Council, should that body happen to act independently of the commission's report and proceed to fix rates without any regard for the commission's ideas. It is not probable that a Council would thus ignore a report meaty with information and juicy with mature thought; but it would be very desirable to save the proposed commission from an attack of megalomania. Hearken, for instance, unto the roars of Editor Gibson of the Harbor Commission, who now rages in the imagination that his subordinate body is a greater than the City Council or the Board of Public Works.

If the City Council really desires to rid itself of all responsibility and become a congregation of dummies, there is a simpler method than the appointment of all these commissions, joint committees and so on—this would be to merely turn all the business right over to Willard. He would take the job.

HOPE FOR CHINA.

No wonder China in her hour of peril turns to the United States. From here goes out the only ray of hope for the Flowery Kingdom. Europe is as land hungry today as ever. France has made inroads into China on the south. Great Britain is closely entrenched at Hongkong, and has large interests at Shanghai and all up the Yellow River. Germany is trying to gain a foothold farther north, and Russia threatens all the northern frontier. Latest of all comes Japan with Port Arthur in her clutch, Korea under her foot, and grasping after Manchuria. It looks as if Great Britain had given Japan to understand that she would back up the demands made on China to control in Manchuria, and as if this is well known at Peking.

America has no designs on Chinese territory. We wish to trade with China on equal terms and would help her develop her natural wealth. These facts are seemingly plain to the governments of Europe, for they are all bent on shutting us out from participation in Chinese development. This is not because they are jealous of our finances, but because they fear in case of trouble with China over these investments we would frown on any attempts to fly away territory in compensation for loss in the investments. If our people had an interest in the investments our government could more easily step in should there be necessity.

The relations of China and Japan are really the most critical of our foreign concerns. Japan is almost forced to seek an outlet for her redundant population. Korea is not long. The foothold gained in Korea is a convenient stepping stone to reach Manchuria, tempting to Japanese eyes because of its wide extent of sparsely-peopled, rich territory. The Japanese are adroit diplomats. They protest and proclaim in the most urgent, but amiable way, while they move forward to the very ends they tell us they have not in mind. China knows her neighbor better than we do. It is to our interest to protect the territorial integrity of China. It would be an act of high humanity to prevent aggression on the part of any nation. But how far

A BIRD'S-EYE VIEW OF THE SITUATION.

can we go in the face of a combination of so many powers to keep us out of China, with an understanding between them all as to how the spoils are to be divided? The best kindness that could be done China would be to teach her people the arts of war, help in the organization of a powerful army, and thus put the nation in a position where it can protect itself.

THE AMERICAN TOURIST.

Times do change. The average Englishman used to look down on Americans with an air of patronage. Now it is the American tourist who thinks this air of patronage amply justified when he visits Great Britain. Travelers come back to Los Angeles and other American cities, after a hurried trip around the world, and flash with wit at the expense of the older lands beyond the seas. Particularly is this the case with the younger generation of American tourists. England is beginning to sit up and take some notice of the summer invaders who have the habit of gumming up the country in pregnant phrases. One London journal prints some remarks made by young women from the Middle West, on a recent visit. Artistic London, we are told, has long waited for this, uttered by one of the lady tourists: "The National Gallery looks like a man in a derby hat and a frock coat." Or this: "The statues in Westminster Abbey would look better if their heads were off;" or this, in reference to London buses: "Funny old things with stairs."

Armed with a hand bag, two keen, restless eyes, and a sharp tongue, "ready to see most things as they are and some things as they ought to be," as one observer puts it, the female American tourist is telling Londoners home truths. We don't wonder that the Cockney has his breath taken away with the cool frankness of a point-of-view he never dreamed of.

An English member of Parliament discussed the "young lady from the Middle West" the other day. He found her possessing a full-fledged wit, an independent mind and an attitude devoid of diffidence. But what struck him as particularly ironical was the fact that "she comes from that same West so brutally lampooned by Dickens and Mrs. Trollope, and, must it be said? her epigrams cut ten times deeper than anything Dickens ever penned about America."

The reason? Well, the epigrams of the American tourist cut deeply because they are true. One of these days, when airships are flying around and Great Britain ceases to be an island, our portly friend John Bull will rise up and call the American tourist blessed for acting the part of the candid critic.

NOT ALL FLOWERS.

This is truly a land of beauty and this is a city of beautiful homes. Flowers are richer, more resplendent and sweeter than elsewhere. But ocean breezes, flowers, the song of the mockingbird and the sunbeams are not enough to live on or to build up a great, prosperous community.

The City Council ever has the perplexing question before it as to where to permit the installation of industrial plants and where to prohibit them. A broad spirit of justice is necessary to decide these questions.

There must be a sort of borderland between the industrial section and the residence portion of the city. It is unfortunate for the property owner whose parcel of real estate is in neither zone, or in both according to the way you look at it. Here is a block of ground occupied by a planing mill and lumber yard, and three blocks away is one on which some person has built a fine home. In between lie two blocks, vacant land perhaps, or occupied by a small cottage. The parcel next door to the mill will not be bought for a home, and a mill there ruins the site of the cottage for home purposes.

We are probably prone to be fastidious in our tastes because of the estheticism that comes from dwelling amid so much beauty. The solution of the problem will not be to be too narrow. We must have industries here if we are to go on growing and if our people are to be allowed to earn a living. To gain these points we must be content to sacrifice something and to put up with inconveniences.

HOROSCOPE.

Monday, August 16, 1939.

Mercury is in conjunction with the moon on this 22nd day and augurs excellently for advertisers, canvassers, agents, representatives, demonstrators, salespeople and for those who have desires or wishes in the direction of employment, advancement or increase of pay or profit.

The day is also good for those engaged in teaching and for selecting schools for children. A good sign is over the choice of professions, trades, or businesses for young persons.

Superiors should be well inclined, and be likely to bestow favors or agree to propositions; but there is a sign warning petitioners against unreadiness. Therefore it will be well to be prepared fully with facts and replies.

The day should be good for travelers, whether they voyage for business or pleasure.

Over New York there rises a sign today presaging ill for finance and the exchanges during a period of some length. There is an indication of decrease in the public revenues. Speculative purchase or sale of securities is dangerous for the day.

The day is good for writings, dictation, calculations, balancing accounts and searching for errors that have long defied detection.

Those of convivial temperament must avoid temptation, as there is an excess of the social inclination in the day.

Employers will do well to resist impulses to undue criticism or sharp rebuke in this period. There is danger of injustice.

Be careful about approaching moving vehicles or using elevators.

Those whose birthdate this is will need to moderate their social inclinations during the twelfth month. They should start today with a practical plan of work for the ensuing year.

Children born today are under an aspect that generally gives abundant mentality and brightness, but often adds an inclination to be impractical and to dream things rather than to do them.

UNCLE WALT, WARBLER.

BY UNCLE WALT WARBLER OF EMPORIA.

Castro, Hamid and Shah—gayest bunch you ever saw! Where Salt River waters foam, they have made their sylvan home, far from all the grief and groan, of the palace and the throne; far from all the stress and strife, clinging to the Simple Life; far removed from busy mart, they are Close to Nature's Heart; hand in hand they form a ring, on the river's shore and sing: "We're the Jolly Cheer Up Guys! Grief is foolish, joy is wise! Once we clung to robe and crown, but we'll try to live it down! Scepters all are out of plumb, thrones are strictly on the bum, power's the shadow of a shade, fame is circus lemonade! Harem life is stale and flat, women all become so fat. Nothing human is worth while—nothing but the Cheer Up Smile, nothing but the joyous song that we carol all day long. We're the happy Cheer Up Kids, joyous as the katydids; come and join us, queens and kings! Fire your crowns and kindred things; come and join our merry ring, come and dance with us and sing; gladness is our only law—Castro, Hamid and the Shah!"

TWO VIEWS OF HENRY.

Kind of Grafting.

Chairman Tawney of the Appropriations Committee made the statement that Mr. Henry had received during the last year \$23,000 for services he did not render. Subsequently Mr. Tawney said: "As a matter of fact, Mr. Henry has not performed any active service for the last three years. He was appointed November 7, 1903, and his active service continued for about three years, for which he received in all \$69,000." Mr. Henry is prosecuting San Francisco grafters, and has been applauded throughout the country for his courage and honesty, which would be all right in itself. But in the midst of this applause comes the commission of the chairman of the Appropriations Committee that the zealous attorney drew \$23,000 from the United States treasury for which he rendered no service, and it is also plain that the other large amount which Mr. Henry received was for services that ought to have been rendered by the attorney who was bearing a commission and receiving a salary from the government. We should like to believe that there is a mistake about this matter, for we cannot believe that grafting from the Federal Government is better than grafting from San Francisco.

The Henry Stoop.

[From the Daily Free Lance, Imperial.]

Henry of the Daily Free Lance, Imperial, announced that he will once more assume his position in the center of the stage and take the leading role in the continuous vaudeville performance, which is carried on in San Francisco.

Why the people of San Francisco or any other community will stand any length of time for such a four-flushing, limelighting fiasco as Henry is beyond the comprehension of sane people.

For several years Henry has carried on his gun-fighting, bullragging exhibition with absolutely no

USIC AND THE STAGE

other results than to keep the newspapers filled with his doings and his actions.

Were Henry sincere in his prosecution of the advancement of the interests of the stage, these decent people would have some reason for him. His every action is the action of a caricature and his only object is to keep his name before the public.

In his endeavor to convict so-called grafters, Henry has stooped to a level beneath that of the grafters, at the Burbank theatre.

His gang of Hawkshawes and shams have proved to be worse criminals than the men whom they are running down, and his methods have been in every instance.

Gems from Rusklin.

To know anything about God you must know yourself a somewhat better creature; and in order to do that find out, first, what you are now.

The weakest among us has a gift, however insignificantly trivial, which is peculiar to him, and which, worthily used, will be a gift also to his neighbor.

Violate truth willfully, in the slightest degree, at least, get into the habit of violating all kinds of truth and error will surround you to your full.

We should be afraid of doing wrong, and, only, otherwise, if we only don't do wrong of being punished, we have done wrong of being honest.

The best prayer at the beginning of a week that we may not lose its moments.—[Wash. Herald.]

IMPORTS OF FRUITS AND NUTS

BY WALTER J. BALLARD.

California has reason to be pleased with the tariff law, because the increased protection of its fruit industry, in view of the fact that our exports of fruits have exceeded \$76,000,000 in value the past three fiscal years.

Here is the Bureau of Statistics record:

Table with 2 columns: Fiscal year, Total for three years.

The 1909 total classified as:

Table with 2 columns: Quantity, Value.

Total for 1909, fiscal year.

All of the imports pay duty except the duty-free and one-sixth in value of the "all other."

In the three fiscal years named our imports of nuts have been:

Table with 2 columns: Fiscal year, Total for three years.

The 1909 total classified as:

Table with 2 columns: Quantity, Value.

Total for 1909, fiscal year.

Of this list all are subject to duty except coconuts, coconut meat, cream and butter, and palm and palm oil kernels.

Combined, the three years' imports of fruits and nuts have a value of:

Table with 2 columns: Fiscal year, Total for three years.

Embraced in that large total there is a new tariff, wide opportunity for further benefit of the production of California fruits.

A Bohemian Bacchanal.

Red Rose leaves, red Rose leaves, With sparkling juice of Grape; Away, dull Care, that only grieves; For Life is Youth, and Youth is Joy, While Joy is like the dew That glistens with no false alloy; So here's a health to you!

Red Rose leaves, red Rose leaves; Blue Sky and golden Sun; Come, let us seek where Sorrow grieves; The Night is dead—but see the Morn Is dawning, without end; 'Tis good, 'tis good that we were born; Ho, here's a health, my friend!

—[Edward H. S. Terry, in book, News Melodist.]

Knocks by the Broadway Kicker.

Ever think of the great amount of waste in talking foolishness? All men are born free and equal, but men spoil it by getting married. Ever notice how hard it is for a man to be natural when everything is coming his way? The woman who insists on having her own way usually changes her mind so often that it becomes monotonous.

The average man would like his wife to be practical and sensible woman; yet if she were ten to one he'd be afraid of her.

Proof Positive.

A Western newspaper man recently told the following story on former Representative Cummings of New York, who was once city editor of the New York Times.

"Tom," he said, "go out tomorrow and find out the saloons are selling liquor."

It was Thursday when Tom again appeared at the city desk.

"They were," he reported.—[Success Magazine.]

Lively Presentation of the Day's Interesting Happenings in Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PAIN CEASES AS EYES CLOSE.

PIONEER AND VETERAN DIES AFTER MUCH SUFFERING.

Was Prominent Mason and Former City Councilman—Well-Known As "Paddy" in Los Angeles. Without Fast Becoming Known For Some Days.

Office of The Times, Aug. 14.—William Shibley, Pasadena, pioneer, prominent Mason and Civil War Veteran and former member of the City Council, died shortly before midnight Saturday.

Two years ago Mr. Shibley suffered an attack of paralysis and never recovered. For the last year he had been confined to his bed at his residence, No. 519 South Marengo avenue, practically all the time. For several weeks he slowly failed, his daughter, Miss Elizabeth O. Shibley, being called to his bedside from Chicago, four weeks ago.

Other relatives in attendance upon him were his daughter, Mrs. Mary B. Shibley of this city, and two sisters who live here: Mrs. Sarah M. Root and Mrs. Mary Palmer.

"While we will miss our kind, trustworthy comrade and brother, and feel the deepest sympathy for his daughters and sisters, we can only be happy that he has passed, relieving him from his long and painful struggle with pain," said William Vedder, former mayor of Pasadena, under whom Shibley served as a councilman.

"I knew Mr. Shibley in so many different ways, as a councilman, in business, as a Mason and as we came from the same part of New York State, there was the additional bond of old reminiscences and friendships between us. All the ways that I have known him, his dominating characteristic was his kindness and thorough fairness. He was a high-class engineer during the Civil War and the careful military training endowed him with an exactness and logic in thought and action that I have seldom seen in men."

"When I was mayor of Pasadena, Mr. Shibley served as chairman of the board of public utilities. To us he was known as 'Paddy' and he was very much liked by all of us. He was very kind, very careful, often devoting whole days to the matter, prior to the presentation of the bill to the council. If there was one little thing which he did not understand he entered his very office and found out exactly where and for what he was going to be doing. He kept down expenses and in business was a man of excellent judgment. But coupled with all his business was a dominating character that made him run smoothly. He would say, 'I don't know about this, but I'll find out a little more carefully,' and invariably his suggestion when carried out proved of good purpose."

"As an ex-military commander of the Pasadena Commandery his military training was a quiet power in his capacity for the office. He was very exacting, kindness always present."

William Shibley was born in Rensselaer county, New York, January 4, 1848. As an army man he was a member of Company D, United States Engineers, serving at the battles of Gettysburg, Petersburg, Bull Run and other encounters. He was a non-commissioned officer in the 10th regiment of the John F. Godfrey Post, A.R.

For several years as a young man he was in the stock and grain business in Rockton, Illinois. Later he went four years in Chicago, New York, then came to California in 1882, where he moved to Pasadena, where he retired from active business.

Mr. Shibley was married twice, his first wife dying in 1881 and his second in 1885. He had one daughter by his first wife.

His funeral will take place Tuesday afternoon at 2:30 o'clock at the home of his daughter, Mrs. Mary B. Shibley, 519 South Marengo avenue. Services will be in charge of the Pasadena Commandery, A.R.

Interment will be in the Hollywood cemetery. The body will be cremated.

POPULAR WOMAN DEAD.

Mrs. Ada Otis is dead. The matter of her death has only been noted by a press in a brief general announcement which appeared in The Times on Tuesday morning.

Since then it has been learned that the woman who died at the Good Samaritan Hospital in Los Angeles, August 8, as no other than Ada Otis, who has so well and so long been known in Pasadena for a number of seasons.

With her husband, Tom Otis, from whom she was later divorced, she was guest at the Marysville Hotel, living in the house shown received such comment at the time she made her appearance. Mrs. Otis died at the hotel after a long illness.

Mrs. Otis arrived at the Van Nuys hotel July 22, suffering from asthma. She remained there until August 8, when she died. She was 62 years of age.

AUTOMOBILE CRASH.

E. J. Pyle, cashier of the Pasadena National Bank, driving a Cadillac automobile, had a sharp collision with a Maxwell machine, owned by Myron Hunt and driven by Hunt's son, at the corner of Colorado street and Terrace Drive at 10 o'clock yesterday morning. The automobiles were badly wrecked, but the occupants escaped, practically uninjured.

Pyle, with his chauffeur in the rear seat, was driving north on Terrace street and started to turn west on Colorado street. Changing his mind at the last instant he swung sharply to the right and crashed into the car driven by Turley Pyle, who was driving south on Terrace street.

The two autos came together at a side angle, with a crash that could be heard three blocks away. Pyle's machine was broken, the engine was demolished and the bumper was buckled up. Hunt's car had a badly twisted radiator; the front wheels were broken and various attachments were damaged. Both cars started by their machines, being held in by the starting wheels, simply sustained hard punches in the front by the mechanism in front of them. It is said that the matter has been amicably adjusted.

ANTI-CONSOLIDATION SCHEME IN BELMONT HEIGHTS.

City Trustees Put the Tax Rate at Forty Cents, But Increase the Assessment on a Varying Scale from Two to Four Times That Made by the County Last Year.

LONG BEACH, Aug. 15.—Much interest is manifested today, both in Long Beach and Belmont Heights, over the probable action by the City Trustees of the latter municipality tomorrow night, regarding the calling of an election in that city on October 5 to vote on consolidation with Long Beach.

The Trustees have dodged the matter two weeks, once by having no quorum and the second time by meeting and adjourning before the arrival of the City Clerk of Long Beach, with the official notice from the Council of the special charter city. But the following morning, each Trustee appeared, personally, with the notice and therefore they will probably take some action tomorrow.

Some of the Trustees still insist that an election will never be called, and with this possibility in view, an affidavit and complaint from a resident of Belmont on its way to San Francisco asking the Supreme Court to issue a writ of mandate compelling the calling of the election. This will be presented Tuesday morning by Attorney Percy Hight, unless he receives word that the trustees have surrendered.

The Belmont Trustees met the past week as a Board of Equalization and evolved a plan which they think will result in a consolidation by agreeing to a tax rate of 40 cents which looks well as against the 70-cent rate adopted by Long Beach. But the board is not satisfied that such periods will be split up or entirely done away with.

Important changes have been made in the mail service between Los Angeles and Pasadena, particularly with relation to the San Francisco "Owl" mail. Clerks are to be kept on duty all night now in Pasadena and the distribution of both incoming and outgoing mail is to be rearranged so that mail delivery periods will be split up or entirely done away with.

For the northbound "Owl" mail was mailed here as late as 4:30 o'clock in the afternoon. Mail leaving San Francisco at 6:30 in the evening will be delivered in Pasadena by 5 o'clock the next morning. Also eastern mail coming by way of the Southern Pacific and other mail passing through there will be delivered here at night instead of the following morning.

YAW SINGS TO CHOICES.

Mr. and Mrs. V. Galtwhaithe, the latter Ellen Beach Yaw, the remarkable soprano, were guests at Mr. Yaw's Saturday night. The sweet singer, accompanied by her husband, went out to Echo Rock and there she awoke startlingly beautiful chords and tremolos to the admiration of a crowd of people who followed her out.

Down at Strain's camp, a quarter of mile from the hotel, an evening of vaudeville was given. A dainty skit entitled "Fast Friends" was presented by Mrs. H. A. Hancock and Miss O. L. Grant of Los Angeles. Miss Grace Keane sang a number of pieces and E. B. Gray did some creditable impersonations.

Among Pasadena's present at the show were Superintendent of Schools A. L. Hamilton, Theodore Coleman, secretary of the Pasadena Chamber of Commerce, and Rev. Robert Meredith. The latter, a venerable minister, known as the dean of Pasadena clergymen, who recently retired from the pastorate of the First Congregational Church, was taken to the summit by special permit, in a light car, to see the view.

PASADENA NEWS NOTES.

Jack Craig, brother of Volney Craig of West California street, and a popular society man of Pasadena in early days, has returned on a short visit after an absence of about ten years. He is superintendent of the Consolidated Goldfields Mines at Johannesburg, Africa.

Mr. and Mrs. James S. Macdonnell leave next week on a three weeks' trip to British Columbia, where they will visit relatives of Mr. Macdonnell at Victoria. They will also take in the fair at Seattle.

Dr. J. M. Rodebaugh has left on his extended trip through the East. Gretta Creese, the plucky young woman who shot and wounded a buck deer, has returned on a short visit after an absence of about ten years. He is superintendent of the Consolidated Goldfields Mines at Johannesburg, Africa.

OCEAN PARK.

OCEAN PARK, Aug. 15.—H. C. Chendee died last night at the Santa Monica Bay Hospital, following a surgical operation performed two days before. Appendicitis was his ailment. He was about 39 years of age and had been a resident of the beach but a short time. The body will be shipped to his old home in Kentucky for burial.

The tax rate for the new year will be 80 cents on each \$100 of assessed valuation. The rate will be 70 cents on the remainder and will be for the support of the city government.

AT THE BEACHES.

Patrons of The Times visiting any of the following named resorts during the summer season may have The Times served to them by the regular agent named by notifying either The Times main or branch office or the local agency, at the regular subscription price of 20 cents per week and 75 cents per month.
